👤 Profile

Driven by a passion for coding and problem-solving, I thrive on turning ideas into impactful digital products. The excitement of seeing my code come to life keeps me motivated to explore and master new technologies. With strong expertise in React, JavaScript, and web development frameworks like Node.js, Shadcn, MongoDB, and Appwrite, I'm committed to staying at the forefront of the tech landscape. I am eager to contribute to innovative projects and be part of the ongoing evolution in the world of technology.

💼 Projects

Tourmate

A Tourism Platform

Tourmate is a web platform aimed at providing travelers with detailed information and tools for planning their trips effectively.

- Created a user-centric interface with intuitive navigation to explore various travel destinations and services.
- Enhanced the platform's interactivity with features like search filters, reviews, and ratings to help users make informed decisions.

ReKindle

A Platform for Alumni Relations

It is a platform that was made for fostering Alumni Relationships. It was a SIH Project where a part of this website was developed by me.

- It was a connection portal with multiple features associated so that Alumnis can be connect, like Job Portal, Admin Dashboard
- Personally worked on making the Home page,Donation portal with Integrated Payment Gateway and Alumni Directory and other parts of designs.
- It has an Integrated secure authentication and authorization for managing user access.
